Elementary

- Elementary Enrichment Mrs. Schmidt
 - The elementary enrichment group dabbled with the components of structure and function.
 - Their task was to make a freestanding bridge out of paper supplies that could support a paperclip, ball, 2-pound weight, and a 5-pound weight. Only one out of the four groups were successful in creating the bridge that held the max weight.
 - o On January 23, the enrichment group dissected and examined owl pellets.
 - While dissecting, the students identified the different body parts of other animals using the Owl Pellet Bone Chart.
 - Our elementary enrichment group became paleontologists on February 6th.
 - Students were able to find different fossils from their "dig sites" to determine what animal it was, its habitat, and the foods it ate.

GISH "CELL PHONE FREE" EXPECTATIONS

GISH will not allow the use of personal electronic devices at school.

To better ensure the safety and emotional well-being of all students, we have made the decision to be a "cell phone free" school.

Personal Technology Expectations:

- From 8:05 a.m. 3:30 p.m. all cell phones and personal electronic devices must be in backpacks or pockets, out of sight.
- Phones or personal electronic devices must remain out of sight for students using hall passes.
- Teachers and Staff will model the same protocols and will monitor expectations among students in a fair and equitable manner.
- Personal electronic devices will be confiscated by GISH Administration if seen in violation of expectations. Parents or guardians will be able to pick-up confiscated technology after school.
- Accommodations will be made for students that require a personal electronic device for medical assistance or for Individualized Education Programs (IEP). Reach out to your Academy Counselor or Principal for support.

Our top priority has always been providing impactful learning opportunities for our students. At Grand Island Senior High, we believe part of that process includes more consistent and strict monitoring of cell phone and mobile device use.

FW: Homer Public Schools-child care licensing, contact information

Hello Mr. Cruickshank,

It was good talking to you yesterday regarding a possible child care center in your school. Here are the contacts I talked about. As I mentioned, we recommend contacting the State Fire Marshal and the State Health inspector for consultation on what would be required to operate a child care program within your facility.

- 1. Jeann Granstra—Child Care Inspection Specialist who covers Dakota County, jeann.granstra@nebraska.gov 402-649-5927
- 2. Jim Kenney --- State Fire Marshal, jim.kenney@nebraska.gov 402-249-3143
- 3. Ericka Sanders --- State Health inspector, ericka.sanders@nebraska.gov 402-649-5263

Please feel free to contact myself or Jeann Granstra when you are ready for an application packet to apply for a provisional child care center license. Please contact us at any time if you have additional questions. Thank you.

The district had no formal roof management program in place. A written roof management program should be developed and implemented which will allow the district to better manage roof repairs and replacement by budgeting over time. This program should be designed to reduce roof leaks, wind and hail damage. For assistance in developing a program, visit www.emcins.com.
